

dbg::get_type_name

```
graph LR; A[dbg::get_type_name] --> B[dbg::type]
```

A diagram showing a function pointer relationship. On the left, a gray rectangular box contains the text 'dbg::get_type_name'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'dbg::type'. Both boxes have a black border.

dbg::type
